

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Sydinvest Global Value Equities B EUR Acc

DK0060647600

Verden Ligevægt & Value Akkumulerende KL is a fund of
Investeringsforeningen Sydinvest. The fund is managed by Syd Fund
Management A/S. Unit class: Global Value Equities B EUR Acc,
Date of Production 08/04/2024

DK0060647600, www.sydinvest.dk. Further information is available
on tel +45 74373300. The Danish FSA is responsible for supervising
Syd Fund Management A/S with respect to this document.

What is this product?

Type:
This product is classified as a UCITS.
The unit class is actively managed and invests in foreign shares. The unit
class invests globally in shares. The foreign exchange risk in connection
with the equity investments of the unit class is not hedged. The unit class
falls within Article 8 of the Disclosure Regulation and thus promotes
environmental and/or social characteristics as well as good governance
practices. The investment strategy integrates ESG in a screening process
regarding issuers. The screening process is described in the prospectus of
the investment fund. The return of the unit class is primarily determined by
developments in global equity and currency markets.
The unit class does not distribute dividends. Return derives from changes in
the price of the units of the unit class.

Maturity:
The unit class has no date of termination. However the unit class may be
discontinued if the general meeting so decides (for instance by way of
winding-up or merger) and if the conditions attached to it are complied
with.

Objective:

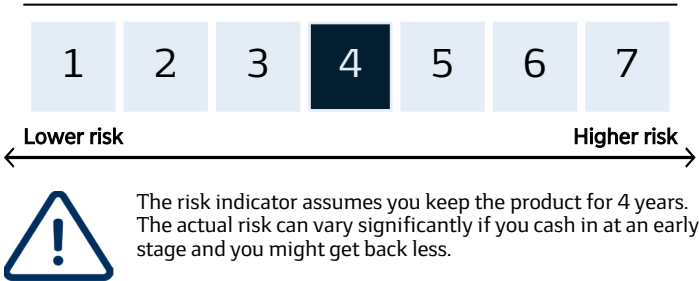

The objective is to obtain a return that equals or outperforms the return of
the benchmark of the unit class, which is MSCI All Country World Index
even though the portfolio of the unit class is designed without reference to
the index and will not copy it.

Intended retail investor:
Unit class units have not been admitted to trading on a stock exchange.
Units are targeted at and reserved for foreign retail investors.
The unit class targets investors who accept and understand that the value
of the unit class is directly related to developments in the value of the
underlying investments and that this value will fluctuate over time.
Investing in the unit class does not require investors to have specific
knowledge of financial markets or instruments.
Depository: Sydbank A/S
Further information: Articles of association, prospectus, most recent unit
prices (NAV) as well as additional information material, including annual
reports and interim reports are available at www.sydinvest.de/
sydinvest.com or at Syd Fund Management A/S free of charge. The material
is available in Danish and English.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product
compared to other products. It shows how likely it is that the product will
lose money because of movements in the markets or because we are not
able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.
This rates the potential losses from future performance at a medium level
and poor market conditions will likely impact the return.

The unit class invests in equities where traditionally prices must be
expected to fluctuate more than bond prices. The return of the unit class
will be affected by for instance the financial circumstances and
expectations regarding the companies invested in, exchange rates as well as
the overall trend in the economy.
Be aware of the currency risk. The currency of this unit class may differ
from your country's currency. The payments you receive are in the currency

of this unit class instead of your country's currency and the final return will
depend on the exchange rate between the two currencies. This risk is not
included in the indicator above.
Other important risks not included in the summary risk indicator:
The fund pursues an active currency policy and assumes currency risks that
may affect return positively or negatively.

Performance Scenarios
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately
predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last
10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		4 years	
Example Investment:		€10.000	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum			
Stress	What you might get back after costs	€1.360	€1.760
	Average return each year	-86.40%	-35.24%
Unfavourable	What you might get back after costs	€7.610	€9.850
	Average return each year	-23.91%	-0.37%
Moderate	What you might get back after costs	€10.070	€12.230
	Average return each year	0.75%	5.17%
Favourable	What you might get back after costs	€13.710	€17.500
	Average return each year	37.14%	15.02%

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Syd Fund Management A/S is unable to pay out?

The fund's assets are held in custody with its depositary. Consequently holdings will not be affected by the insolvency of the management company. If the depositary or a representative appointed by the depositary becomes insolvent, the fund may however face a financial loss. This loss is not covered by any investor compensation or guarantee scheme. This risk is however mitigated to a certain extent since according to existing legislation the depositary must segregate its own assets from the fund's assets. The depositary is moreover liable with respect to the fund and its investors for any loss, including losses arising as a result of the depositary's breach, fraud or deliberate non-performance of its obligations (subject to certain limitations).

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

In the first year you would get back the amount invested (0% in annual return). In the other holding periods we have assumed that the product will perform as shown in the moderate scenario.

EUR 10.000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	€653	€1103
Annual cost impact (*)	6.6%	2.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.9% before costs and 5.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5,19% of the amount you pay in when entering this investment. This is the most you will be charged. *Rounding may occur. The maximum percentage from time to time is shown at www.sydinvest.de / www.sydinvest.com as well as in the fund's prospectus.	Up to €519
Exit costs	0,16% of your investment before it is paid out to you. *Rounding may occur. The maximum percentage from time to time is shown at www.sydinvest.de / www.sydinvest.com as well as in the fund's prospectus.	€16
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,17% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€117
Transaction costs	0,08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€8
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period: 4 years. Given the underlying investments as well as the objective to generate a stable long-term return subject to risk, a holding period of a minimum of 4 years is recommended. There is no maximum recommended holding period.

Under normal circumstances you can always sell your units at the current price on days when banks are open. In connection with a sale exit charges are paid, see "What are the costs?".

How can I complain?

In case of complaints regarding own accounts, custody accounts or advice on your investments in the investment fund, please contact your account manager or your bank. Complaints about the investment fund must be submitted in writing to Syd Fund Management A/S, Peberlyk 4, 6200 Aabenraa, Denmark, Attn: Complaints Officer, marked: "Klage" or by email to si@sydinvest.dk. If you are not satisfied with how your complaint has been dealt with, you can contact Secretariat for the Danish Financial Complaint Board, St. Kongensgade 62, 2. sal, 1264 Copenhagen K, Denmark, email: sek@fanke.dk.

Other relevant information

Further information about the fund appears from the prospectus, which, according to current regulation, is available free of charge from Syd Fund Management A/S. Here you can also obtain the investment fund's articles of association, annual report and interim report in which this fund is included. The material is available in Danish and English. The material is also available on the investment fund's website sydinvest.de and sydinvest.com. The website also contains further information about the investment fund and the investment fund's portfolios, including information on holdings and on past performance in the most recent 1 to 10 years depending on how long the unit class has existed as well as historical performance scenario calculations.
