

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you to understand the nature and the risk of this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Roxbury Credit Events Fund (the "Fund") a sub-fund of The Roxbury Fund ICAV (the "ICAV"), for whom Roxbury Asset Management Limited acts as Investment Manager.

Class GBP FL Shares
ISIN:IE00BYVTVG63

Objectives and Investment Policy

The Fund aims to generate an absolute return for investors regardless of economic and market developments. To achieve this objective, the Fund will employ flexible risk/reward based investment strategies with an opportunistic trading approach primarily through investment in credit instruments listed or traded on regulated markets within Europe. These strategies include seeking to find discrepancies between market value and fair value of securities or between the value of different types of securities from the same issuer; analysis of a market, industrial or geographic sector; analysis of trends in credit markets and Financial Derivative Instruments ("FDIs") (contracts between parties whose value depends on the price change of an underlying asset) based strategies.

The Fund intends to be flexible in relation to the range of risk/reward strategies and in pursuit of the investment objectives to react to, and take advantage of market conditions using strategies including, but not limited to, directional strategies, relative value strategies, capital structure strategies, derivatives basis strategies and macro trading.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

Investors can subscribe for and redeem shares every Thursday, giving notice the previous Tuesday, when the banks in Dublin are open for business (a "Business Day") and if such day is not a Business Day, the preceding Business Day.

Portfolio transaction costs will impact on the return on your investment due to nature of the Fund's investment strategy. These costs are paid from the assets of the Fund in addition to those costs set out in the "Charges" section below. The Fund will not distribute any investment income. For full investment objective and policy details, please refer to the "Investment Objectives and Policies" section of the ICAV's Prospectus.

Risk and Reward Profile

The Investment Manager is obliged to make an estimate of the risk and reward profile of the Fund despite it having no operating history. Consequently, the assigned risk category may not prove to be a reliable estimate of the riskiness of the Fund. The category is not a measure of capital or gains but of the range of price changes the Fund might experience. The category shown is not guaranteed and may shift over time. The minimum recommended holding period is one year. Generally, a share class whose price has experienced significant rises and falls will be in a higher risk category compared to one which has experienced less significant price changes. The lowest risk category does not mean an investment is free of risk.

The Investment Manager's judgement is that the Fund is Category 3. The risk indicator was determined primarily upon the riskiness of the returns of a similar investment strategy using the same investment process managed by senior executives of Roxbury Asset Management.

The Fund may use FDIs for efficient portfolio management purposes, to help manage risks and for investment purposes. The Fund may employ leverage through the use of FDIs. Leverage may have the effect of producing gains or losses larger than the amount paid for the FDIs used.

Concentration Risk: The Fund's assets may, at times, in accordance with the requirements of the Central Bank of Ireland be concentrated into specific sectors and/or issuers which may expose the Fund to greater fluctuations in asset values than when investing broadly.

Counterparty Risk: a party with whom the Fund contracts for securities or safekeeping of the assets may fail to meet obligations or become insolvent which may cause losses to the Fund. In pursuing its objective, the Fund is exposed to risks including the Fund losing a greater amount on FDIs than it originally invested.

Credit Securities Risk: Investment in credit securities involves a degree of risk arising from fluctuations in the likelihood, amount and timing of the receipt of principal and interest.

Liquidity Risk: Where redemption requests exceeds the amount of cash or liquid assets immediately available to the Fund, the Fund may seek to liquidate additional assets to fund the redemption requests.

For more information on risks please refer to the "Risk Factors" section of the ICAV's Prospectus.

Charges

The charges paid by investors are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
These are the maximum charges that the Directors may, in their sole discretion, charge on net subscriptions or redemptions that take place in the fund.	
Charges taken from the fund over a year:	
Ongoing charge	2.28%
Charges taken from the fund under certain specific conditions:	
Switching Fee	Up to 1% of the redemption price of Shares in the fund. Not currently charged.
Performance fee	At the end of each calendar year 12.5% of the amount by which the Net Asset Value exceeds the High Water Mark Net Asset Value.

The ongoing charges are based on the actual expenses for the year ending 31 December 2020. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in underlying UCITS funds

A fee of up to 1% of the amount to be switched may be charged when switching between share classes or sub-funds of the ICAV. It is not currently intended to charge a switching fee.

For more information about charges, please refer to the ICAV's Prospectus and the Fund supplement which is available at www.roxbury-am.com or from Apex Fund Services (Ireland) Ltd (the "Administrator").

Past Performance

The Fund was established only in September 2015 and so there is only limited past performance available to investors which, in any case, is not a reliable indicator of future results.
