The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Macquarie Global Income Opportunities Fund Class I USD

ISIN: LU0947832597

A sub-fund of Macquarie Fund Solutions, a Société d'Investissement à Capital Variable ("SICAV").
The Management Company of the SICAV is Lemanik Asset Management S.A.

Objectives and Investment Policy

Objective: To provide a higher return than cash over the medium term.

Portfolio securities: Under normal conditions, Macquarie Global Income Opportunities Fund (the "Sub-Fund") seeks exposure mainly to a diverse range of global credit based securities. These securities can be issued by corporate bodies, governments or other governmental entities. The Sub-Fund may also have exposure to cash, global high yield credit securities including (from 01.11.2014) senior bank loans that qualify as money market instruments, emerging market debt, hybrid securities and a range of other credit opportunities. Investments in senior bank loans shall not exceed 10% of the net assets of the Sub-Fund. The Sub-Fund may use financial instruments whose value is linked to one or more rates, indices, share prices or other values (derivatives) to manage its exposure to various investment risks (hedging) and to seek investment gains.

Investment process: The investment manager uses a combination of sector rotation and security selection within the portfolio.

Designed for: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 to 7 years.

Benchmark: 3 month US Dollar LIBOR: the average interest rate at which a selection of banks in London are prepared to lend to one another in American dollars with a maturity of 3 months. This is for performance reference only.

Credit based securities: Securities that represent an obligation to repay a debt along with interest.

Further details of other categories of investments that the Sub-Fund may make are set forth in Annex A of the Prospectus for the Sub-Fund.

You can place orders to buy or sell Sub-Fund shares at any time. Orders received on any given Luxembourg business day before noon Luxembourg time will be processed at that day's share price.

This class does not pay you any income and the net asset value of this class reflects net income.

Risk and Reward Profile

The risk indicator is based upon historical data and may not be a reliable indication for the future risk profile of the Sub-Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean a "risk free" investment. The Sub-Fund's risk level of 2 results from the following factors:

- The Sub-Fund is based on an investment philosophy focusing primarily on liquidity and capital preservation.
- The Sub-Fund's core portfolio is invested in global investment grade securities which are traditionally very liquid.
- The Sub-Fund invests opportunistically in high yield credit securities including senior bank loans that qualify as money market instruments, that typically carry a higher risk than investment grade securities.
- The Sub-Fund invests opportunistically in emerging market debt securities that typically carry a higher risk than debt securities issued in developed markets.

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than you paid for them. If your currency as an investor is different from the reference currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks. The Sub-Fund is subject to the following risks which may not be adequately captured by the indicator:

Securities that combine the elements of debt and equity and the risks associated with both, including greater volatility than for straight bond investments with an increased risk of capital loss.

- Certain derivatives could increase the Sub-Fund's volatility or expose the Sub-Fund to losses greater than the cost of the derivatives.

The value of the Sub-Fund's investments may be sensitive to changes in market perceptions of credit quality, both of individual issuers and of the credit markets in general.

For full details of the Sub-Fund's risks, please refer to the Prospectus available as mentioned in section "Practical Information".

Charges

One-off charges taken before or after you invest:

Entry charge	-
Exit charge	-

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year:

Ongoing charge	0,79%
----------------	-------

Charges taken from the fund under certain specific conditions:

Performance fee	-
-----------------	---

The charges you pay as an investor are used to pay for the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The ongoing charges shown are based on expenses for the year ending 31.03.2019 and can vary from year to year. They exclude performance fees if any and portfolio transaction costs, except in the case of entry/exit charge paid by the Sub-Fund when buying or selling shares of another fund.

You may be charged a fee when switching your investment to another sub-fund of the same umbrella fund (the SICAV). For more information about charges, please refer to sections 7 and 9 of the Prospectus and note "Fees and Expenses" of the most recent audited annual report, available at www.mimemea.com/sicav.

Past Performance

Past performance is not a reliable guide to future performance. The performance results are net of all ongoing charges but exclude any entry/exit charges that you might have to pay.

Performance is calculated in USD. The Sub-Fund was launched on 4.11.2013.

The share class came into existence in 2014.
