Objectives and Investment Policy

Objective: To provide investors with a total return comprising both income and capital appreciation by investing globally in fixed- and floating-rate investment grade corporate bonds.

Portfolio Securities: Under normal conditions, Macquarie Corporate Bond Fund (the "Sub-Fund") invests primarily in fixed- and floating-rate investment grade corporate bonds listed or traded on regulated markets worldwide on a global basis. The Sub-Fund may also invest (i) at least 75% in investments which meet the binding environmental, social and governance criteria, (ii) up to 20% of its net assets in bonds that are rated below investment grade, (iii) up to 35% of its net assets in non-US securities, (iv) no more than 15% of its net assets in securities of issuers in emerging markets and (v) up to 10% of its net assets in contingent convertible bonds. The Sub-Fund may purchase participation in or assignments of floating-rate that are liquid and qualify as money market instruments. The Sub-Fund may invest in financial derivative instruments for currency hedging purposes and for efficient portfolio management. The Sub-Fund may be leveraged up to 30% of its net asset value as a result of its use of derivative instruments.

Investment process: The Investment Manager is actively managing the Sub-Fund and has all discretion with respect to the composition of the portfolio. The Investment Manager manages the Sub-Fund to be a high quality, research-driven corporate bond fund designed for long term growth. The Sub-Fund promotes environmental and/or social characteristics, as further described in the Prospectus.

Designed for: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 to 7 years.

Risk and Reward Profile

The risk indicator is based upon historical data and may not be a reliable indication for the future risk profile of the Sub-Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean a "risk free" investment. The Sub-Fund's risk level of 4 results from the following factors:

- The Sub-Fund invests primary in fixed- and floating-rate investment grade corporate bonds.
- The Sub-Fund may invest in non-US securities.

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than you paid for them. If your currency as an investor is different from the reference currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday

risks and could trigger other risks. The Sub-Fund is subject to the following risks which may not be adequately captured by the indicator:

- Fixed income securities and bond funds can lose value, and investors can lose principal, as interest rates rise.
- High yield securities, commonly known as "junk bonds", are subject to reduced creditworthiness of issuers; increased risk of default and a more limited and less liquid secondary market. High yield securities may also be subject to greater price volatility and risk of loss of income and principal than are higher-rated securities.
- The Sub-Fund may be subject to prepayment risk as the cash flow terms of these securities may vary and the uncertainty may affect the return of the Sub-Fund.
- Certain derivatives could increase the Sub-Fund's volatility or expose the Sub-Fund to losses greater than the cost of the derivatives.
- Certain securities could become hard to value, or to sell at a desired time and price.
- The issuers of any type of debt could become unable to make payments on their debt to the Sub-Fund.
- The value of the Sub-Fund's investments may be sensitive to changes in market perceptions of credit quality, both of individual issuers and of the credit markets in general.

For full details of the Sub-Fund's risks, please refer to the Prospectus available as mentioned in section "Risk Considerations".
