Brown Advisory US Sustainable Growth Fund Dollar Class B Dis

ISIN: IE00BF1T6T10

Brown Advisory US Sustainable Growth Fund (“the **Fund**”) is an actively managed sub-fund of Brown Advisory Funds plc (“the **Company**”). The Company is managed by Brown Advisory (Ireland) Limited (“the **Manager**”), part of the Brown Advisory group of companies.

Objectives and Investment Policy

Investment Objective

The Fund aims to achieve capital growth.

Investment Policy

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US companies that the Investment Manager considers have sound fundamentals and business models which are sustainable over the long-term. The Fund invests primarily in the securities of medium and large capitalisation companies that the Investment Manager considers (1) have prospects for above average earnings growth in the future, and (2) effectively implement sustainable business strategies that drive earnings growth. The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US securities, American and Global Depositary Receipts, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities.

Medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than \$2 billion at the time of purchase. The Fund may also invest a portion of the portfolio in equity securities of small market capitalisation companies.

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The equity securities in which the Fund invests are screened based on certain SRI criteria in accordance with various principles set out in declarations and conventions signed by the international community, including, but not limited to, the ten United Nations Global Compact Principles whose purpose is to increase awareness of a sustainable global economy at company level. Equity securities issued by companies violating such principles and not addressing such violations adequately will not be included in the Fund’s portfolio. Other criteria may, as necessary, apply in developing “socially responsible” screens.

Benchmark

The Fund uses the Russell 1000 Growth index as a Comparator Benchmark to compare performance. The Fund is actively managed and is not constrained by any benchmark.

Dealing Frequency

Investors may redeem shares on demand on any day (except Saturday or Sunday) on which the New York Stock Exchange is open.

Distribution Policy

If the Fund generates distributable income on your shares, the Fund intends to distribute that income and will declare any dividend on or about 31 October and will pay any such dividend on or about 14 November each year.

Risk and Reward Profile

The risk and reward indicator

This indicator is based on historical data and may not be a reliable indication for the future risk profile of the Fund.

- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean your investment is risk free. The Fund's investments are subject to normal market fluctuations and other risks inherent in equities.
- The Fund is in category 6 as it mostly invests in equities, which typically experience higher levels of price fluctuation than other types of instruments.
- For a more detailed explanation of these and other risk factors, please refer to the section entitled Risk Factors in the prospectus and supplement.

Other particular risks:

Operational Risk: the Fund's operations depend on third parties, including the Fund's Administrator and Custodian, and the Fund may suffer disruption or loss in the event of their failure.

Equities Risk: equity investments are subject to greater fluctuation in market value than other asset classes as a result of such factors as a company's business performance, investor perceptions, stock market trends and several economic conditions. This may cause the Fund's share price to fluctuate.

Geographic Concentration Risk: the Fund's assets are concentrated in the United States market which may lead to greater price fluctuations than if it were invested in securities of a broader geographic base.

Liquidity Risk: the Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

Exchange Rate Risk: the performance of this share class may be affected by changes in the exchange rates between the share class currency and the US dollar, the currency in which the Fund is denominated, as the Investment Manager will not purchase financial instruments to mitigate any such potential changes in exchange rates.
