This key investor information is accurate as at 20 March 2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

UBS (Lux) Fund Solutions was incorporated in the Grand Duchy of Luxembourg as an open-ended investment company (a "Société d'Investissement à Capital Variable") on 7 September 2001 for an unlimited period under the original name of "Fresco". The fund is governed by the Luxembourg Law of 10 August 1915 on commercial companies, as amended, and by Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investments, as amended. Accordingly, each sub-fund has been established for an unlimited period.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The UBS (Lux) Fund Solutions – MSCI Pacific Socially Responsible UCITS ETF (the 'Fund') is passively managed and will take proportionate exposure on the components of the MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. The Index is designed to measure the performance of best-in-class Environmental, Social and Governance ('ESG') companies based in 5 developed markets countries in the Pacific region while avoiding companies with negative social or environmental impact. This best-in-class approach excludes at least 20% of the least well-rated securities as against the standard index universe (for further details please refer to the index description in the prospectus which currently provides for an exclusion of 75% of the least well rated securities). The Fund does not benefit from a French SRI label.

The Fund will invest its net assets predominantly in shares, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus. The Fund will not enter into any securities lending.

This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.

The return of the fund depends mainly on the performance of the tracked index.

This share class is a distributing share class. The share class may pay dividends.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value and addresses a preference for Sustainable Investing, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depositary

State Street Bank International GmbH, Luxembourg Branch

Information about MSCI Pacific Socially Responsible UCITS ETF and the available share classes, the full prospectus, and the latest annual and semi-annual reports, as well as additional information can be obtained free of charge from the fund management company, the central administrator, the custodian bank, the fund distributors or online at www.ubs.com/etf. Latest price can be found at www.ubs.com/etf

What are the risks and what could I get in return?

Risk indicator

This risk indicator is based on the assumption that you hold the product for 5 year(s). The Summary Risk Indicator (SRI) is a guide to the level of risk of this product compared to other products. It is derived from past returns and may indicate how likely it is that the product will lose money as a result of future (unknown) market conditions.

The Summary Risk indicator (SRI) for this product is 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk when your reference currency differs from the currency of the product. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This type of risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 year(s). Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		\$10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$3500	\$3210
	Average return each year	-65.0%	-20.3%
Unfavourable	What you might get back after costs	\$7140	\$9470
	Average return each year	-28.6%	-1.1%
Moderate	What you might get back after costs	\$10420	\$13220
	Average return each year	4.2%	5.7%
Favourable	What you might get back after costs	\$13950	\$16910
	Average return each year	39.5%	11.1%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenario occurred for an investment between 2013-02-01 and 2023-01-01.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to State Street Bank International GmbH, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10 000 USD is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	\$41	\$238
Annual cost impact (*)	0.4%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 6.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	\$0
Exit costs	We do not charge a redemption fee for this product, but the party who sells the product to you may do so.	\$0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	\$37
Transaction costs	0.0% of the value of the investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$4
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	\$0

The figures shown here do not include any additional fees that may be charged by your distributor, advisor, stock-brokers fees when dealing on secondary market or any insurance wrapper in which the fund may be placed. Transaction costs related to dealing directly with the Fund will be payable by authorised participants or new investors in the fund. For additional information about costs, refer to the prospectus, which is available at www.ubs.com/etf

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

The recommended holding period for this product is 5 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors other than Authorized Participants may not subscribe shares directly with UBS (Lux) Fund Solution, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. Direct redemptions with UBS (Lux) Fund Solutions are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with UBS (Lux) Fund Solutions under the conditions detailed in the relevant Authorized Participant Agreement.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
